

SHEET 4: Figures 7 and 8 -- The numerals have been changed to better comply with USPTO requirements.

Amendments to the Specification:

Six marked-up replacement paragraphs are submitted herewith. These paragraphs are [0001], [0004], [0007], [0019], [0026], and [0029]. The amendments are being made for purposes of clarification. Paragraph [0006] is submitted without amendment. When it was printed in the pre-grant publication, the USPTO made a typographical error. The third word before the end of the paragraph should be "re-stored" and not "restored."

In submitting the above preliminary amendments, the Applicant is attempting to comply with the revised amendment practice of 35 CFR § 1.121 of July 30, 2003. Should the amendment submitted herewith prove deficient in any respect, the Applicant would appreciate the courtesy of an advisory office action.

Please enter the herewith submitted amendments into the application.

Thank you for your kind attention.

Very truly yours,

A handwritten signature in cursive script that reads "Stanley H. Kremen". The signature is fluid and stylized, with the first letters of the first and last names being capitalized and prominent.
